

Terrain d'Aventure du Péri (2013-BEFR-44)

Theme 1: Children

Theme 2: Education through sport and outdoor activities

Project period

EVS activity will start on 01/02/2016 for duration of 12 months

The Hosting Organisation

Le Terrain d'Aventure du Péri (The Adventure Playground of Péri) has been created in 1977, thanks to the involvement of passionate people, parents and neighbours, for whom it was important to offer children a new space of freedom as an alternative to the technical progress and modernity they judged socially unfair.

The adventure playground is open to all young people, from 5 to 26 years old. It is a place dedicated to the self-development and the community life, a place where children can learn and experiment without pressure.

Nearly every day, between 10 and 60 children gather there to share a lot of activities: outdoor games, table games, sheds building, do-it-yourself, cooking workshops, artistic workshops, and gardening. All these activities must help them to develop their autonomy, responsibility, critical sense and solidarity.

There is no obligation to be active and there is no result/production to reach in the adventure playground. The most important is to share and to exchange with the other ones.

In order to avoid any exclusion for socio-economical reason, the access to the adventure playground is totally free of charge.

The playground is recognised as youth center by the French community of Belgium. It follows a mission of education to an active and responsible citizenship. Seven youth workers are employed by the organisation, most of them at part time job.

EVS experience

Since many years The Adventure Playground hosts EVS volunteers from all Europe.

Volunteers are completely integrated in the staff; they have the chance to learn animation techniques, to develop personal skills, to discover another way of entertaining children and young people. Volunteers are warmly welcomed and encouraged to bring new ideas and energy.

Location

The Adventure Playground is located in Liège, the second biggest city of the French Community of Belgium (community that includes the regions of Wallonia and Brussels). There are 190 000 inhabitants in Liège, and almost 450 000 more in its surrounding. Liège is known to be one of the most attractive and lively Belgian cities. The city benefits from a very dynamic cultural life thanks to its various artists and associations.

Liège is an old industrial city that is changing a lot in its adaptation to the 21st century. Well renovated historical areas are mixed with old industrial buildings and very modern architectural projects.

It is located on the border of the river "La Meuse", close by the German and the Dutch borders.

The Adventure Playground in itself is a wonderful green area of 8 000 m² located on the top of the city, not far from the city center. The playground is full of grass, trees and sheds build by several generations of children.

In Liège the volunteer will have his own "studio" where s/he will live alone. This apartment is in the same building where a worker of the Adventure playground lives.

The apartment is 3 kilometres far from the city centre. To arrive to the adventure playground and to the city centre in general, the volunteer will use the public transportation or, if s/he prefers to go by foot, s/he will have to walk more or less half an hour. S/he could also go by bike, riding more or less 15 minutes.

For the night life lovers it's also important to know that the night buses stop to run at midnight.

The project

In our project, the volunteer will be all the time in contact with children and young people. S/he will launch, lead and follow several activities. These ones can be various and will depend of his/her ideas, wishes and skills. They will always suppose a democratic participation of the children who have the right to choose and make proposals.

Usual activities in the Adventure Playground are:

Artistic workshops: painting, sculptures, theatre...

Creative/participative workshops: cooking, sewing, handicraft, shed buildings, storytelling...

Games: outdoor games, sport games, table games.

Outdoor activities: nature discovering, gardening, and so on.

The volunteer will also help us in the maintenance of the Playground (small reparations, painting, grass cutting) and may give a support for some

administrative tasks. S/he will also help us when we'll participate in special events and/or organise punctual projects with other partner organisations: carnival, local fest, shed symposium, international work camp.

During winter time the Playground is open six days per week:

Monday 15-18 pm; Tuesday 15-18 pm ; Wednesday 13-18 pm; Thursday 15-18pm ; Friday 15-20 pm ; Saturday 10-17pm.

During the school holidays it is open 5 days per week, from Monday to Friday, from 10 am to 17 pm.

The volunteer will have a very flexible schedule: our working times depend on children free time from school: during the winter there are more "dead periods" instead of the summer when the activities increase and we have A LOT, A LOT to do!!! 😊

Profile of the volunteer

Our project is open to anybody motivated by volunteering and who wishes to be involved in our organisation, regardless to their nationality, religion, beliefs, diploma, professional experience.

We expect the volunteer to want to build an atmosphere of confidence and security with the youngsters; be ready to involve him/herself in the several activities we do; be able to work together with the staff; be interested in the topic of young people entertainment; agree with our philosophy; to be enthusiast and bring new ideas. As told above it's also important to be very flexible,

wishful to implement workshops and activities for children and youngsters and able to take initiatives!

Number of EVS volunteers hosted

One

Risks prevention, protection and safety

Safety at work: The EVS volunteer will always work under the responsibility of youth workers of CBB. S/he will have the autonomy s/he'll need to develop his/her own initiatives and personal projects, but s/he won't be responsible of an activity on its own.

S/he will always get the advice and support of a youth worker.

The activities s/he will take part in will always be prepared with the staff.

Preparation meetings will allow the staff to inform the EVS volunteer about the rules to respect, about all in risks prevention and safety.

Safety at home: The volunteer will be hosted in an accommodation with all the modern comforts and respecting the safety rules. When arrived, the volunteer will receive a list of phone numbers to call in case of emergency. S/he will also receive the phone numbers of his/her mentor and task-related supervisor.

Risks and crisis prevention: Risks prevention is firstly linked to a good preparation. We will provide the volunteer with complete and true information before s/he will join our project. The sending organisation will be in charge to follow the volunteer during the pre-departure process, to inform him/her about the EVS program, about the rights and responsibilities of the different actors involved, about the administrative obligations the volunteer has to respect before to leave his/her country, etc.

When arrived in Belgium, the volunteer will participate in the on-arrival seminar and the mid-term evaluation organized by the French speaking National Agency.

At the very beginning of the project, we'll especially take care to welcome the volunteer, to show him/her interesting places of our town and Belgium and to present him/her to other young people.

We'll also check that everything is in order with the insurance.

The EVS volunteer will participate in our weekly meeting in order to be integrated in the team and to have the chance to talk about the difficulties s/he lives.

An evaluation of the EVS experience will be made on regular basis with his/her mentor. If there is a problem, a meeting with the project coordinator will be held in order to solve it.

In case of crisis/emergency, we'll require the intervention of the specialized services required, according to the situation.

As we are the hosting and coordinating organisation in this project we are in charge, together with our national agency, to provide the resources that can help in case of any serious casual problems.

How to apply

You need to prepare a **specific motivation letter** for this project as well as a **CV** and send it to YAP Italy: **LTV@YAP.IT** **at the latest on the 3rd of September 2015**. Once the application is received, the volunteer will have to fill in a **questionnaire** and send it back by the 10th of September. **The application of those who didn't send their questionnaire on the 10th won't be taken into consideration.**
